EDUCATION

Army Institute of Technology, Pune **Aug 2023 – Expected May 2027**
Bachelor of Engineering, Electronics and Telecommunication Engineering CGPA: 8.17

SKILLS

Languages	**C/C++, JavaScript, TypeScript, SQL**
Frontend	**React.js, Next.js, Tailwind CSS, Redux, Recoil**
Backend	**Node.js, Express.js, REST APIs, WebSockets, Serverless**
Databases	**PostgreSQL, MongoDB, Redis, Prisma, Mongoose**
DevOps	**AWS (EC2, S3), Docker, CI/CD, Git, Turborepo**
CS Fundamentals	**DSA, OOPs, DBMS, Computer Networks**

EXPERIENCE

Smart India Hackathon (Inter-College) **Sep 2024 – Oct 2024**

- Led a 5-member team to build **IntellectGuard**, a unified MERN stack platform centralizing trademark registration, patent filing, and research publishing into a single ecosystem.
- Spearheaded project planning and UI/UX design, conducted regular agile meetings and creating highly interactive prototypes in Figma.
- Developed a secure backend architecture utilizing Express.js, implementing JWT for secure session management and Zod for strict schema validation, ultimately securing **2nd Position** in the competition.

PROJECTS

PhotoAI **Sep 2025 – Dec 2025**

- Engineered a full-stack AI photo studio utilizing Next.js and fal.ai, allowing users to train face models on personal photos and generate customized images via specific prompts and style packs.
- Integrated AWS S3 with presigned URLs for secure image storage and implemented Clerk for seamless authentication within a Turborepo monorepo architecture.
- Enforced end-to-end type safety using Zod, ensuring robust API contracts and eliminating runtime errors between the frontend and backend.

PayNet **Feb 2025 – Mar 2025**

- Built a peer-to-peer payment application using the MERN stack, enabling users to connect and transfer funds instantly with guaranteed ACID atomicity.
- Implemented MongoDB transactions to ensure atomic mid-transfer rollbacks, maintaining 100% accurate user balances during network or system failures.
- Secured backend endpoints using JWT middleware and Zod validation to prevent unauthorized access and filter out malformed database requests.

EasyDraw **Jul 2025 – Aug 2025**

- Designed a real-time collaborative whiteboard utilizing Next.js and WebSockets, enabling remote teams to brainstorm and draw in secure, private rooms.
- Deployed a dedicated WebSocket server to handle JWT-authenticated connections and room-based state broadcasting for seamless synchronization across multiple clients.
- Persisted canvas state to PostgreSQL using Prisma ORM, ensuring robust data recovery and continuity across user sessions and page reloads.

LEADERSHIP AND ACHIEVEMENTS

- Won a Gold Medal (School Level) at the International Mathematics Olympiad (IMO).
- Managed venue logistics and led the videography team for the annual Alumni Meet, hosting 500+ returning alumni.
- Wrote screenplays and operated cameras for 3 short films and 2 music videos, managing the process from pre-production to post-production.
- Regularly participate in recreational football and cricket matches.
